PHOTO STUDIO

ABOUT

Over a decade of shared experience in the creative industry, traveling to far away places, combined with individual personal growth and a very down to earth approach. Studio Batik is the fruitful outcome of creatives William Los and Daniëlle Kempen's reflections; a boutique photo and film studio where stories will be told through more than just pictures.

Three beautiful, distinct floors make Studio Batik the ultimate destination for leading professionals across a broad range of industries. From fashion and design to architecture, technology and fine arts; creating content of all kinds and disciplines.

A nest for creativity and well-being. A space that is both calm and uplifting, that inspires as well as challenges, making it an environment in which people and brands can create, discover and grow. The go-to place to create campaigns, editorials, still photography, video and podcast recordings for both the on- and offline world.

Love and attention for the individual are key; flexibility and openness allow the studio to meet the diverse needs of each client and partner.

STUDIO BATIK - a residence for creativity, a home to slow down in and an environment to grow.

Connection with each other
Growth we share as a community

Where the photo studio is a space for creativity, the Shala is a place for (re-)grounding. It's a place where people can come together through meditation workshops, breathwork sessions, ceremonies, creative talks and gatherings. As a team or as a little moment to yourself.

The Shala Studio is designed for a multitude of purposes; it's a home that provides a place to grow but can also be used as a professional daylight photo studio. The Shala, located on the top floor, feels open thanks to the adjacent roof terrace, which floods the space with natural light throughout the day. The crisp white walls and bamboo wooden floor give shoots and decors a different atmosphere than the other two floors.
